

For our location in **Pforzheim** we are looking for an

# TECHNICAL EDITOR OMN (M/F/D)

## YOUR AREA OF RESPONSIBILITY

- In an exciting environment, you will create the technical documentation, such as : configuration descriptions, software descriptions, HowTos and illustrations for our Online Media Net product
- Documentation also includes the preparation of complex technical issues in product development with regard to new functionalities as well as the continuous exchange of information with various departments within apollon regarding document content and needs
- You will take care of the expansion and continuous development of our documentation processes as well as the creation of templates and structures in cooperation with the quality management department.

## YOUR SKILLS

- Successfully completed studies in the field of technical editing or training as a technical editor or comparable training
- Relevant professional experience in the field of technical documentation creation, preferably with technical specialist training and editorial experience, also possible as a lateral entry with corresponding specialist experience
- Good knowledge of XML-based editing/documentation systems
- Experience with one or more PIM, MAM or print production systems as well as media creation processes with Mac systems, Adobe software and databases (SQL) is an advantage
- structured, analytical, independent and careful way of working
- High level of communication skills and the ability to present technical issues in a way that is appropriate for the target group
- high level of IT expertise as well as strong online affinity and a very good understanding of technical contexts
- Business fluent communication skills in German and English as well as very good written expression skills
- Confident handling of MS-Office applications
